

## Axolotl Sheet Metal

### SPECIFICATION DATA SHEET

For the information of Specifiers and Trades

#### Product Description

Axolotl Sheet Metal is a new extension of the Axolotl offer. Sheet metals can now be Patinated in a variety of different colours, from Verdigris, Florentine and Pearl. Axolotl Solid metals, such as Copper, Brass, Aluminium, Mild Steel and Stainless Steel are available in a variety of thicknesses and can be used where sheet metal is required in lieu of our decorative metal coatings. This range offers architects and designers the ability to specify pre-aged panels on a new build or renovations, avoiding bright and inconsistent 'fresh' metal, while ensuring the characteristics of the solid metal are retained.

The organic nature of the ageing process enables an intended inconsistency in the panels, just as the material would do naturally if left for several years. It also works well in high traffic areas as it prevents marks such as fingerprints and offers the ability to topcoat the copper for further protection.

Axolotl is able to supply sheets pre-aged, and cut to your requirements.

Axolotl can also age fabricated items supplied to us.

#### Pricing guide

SOLID METAL SHEETING	SHEET SIZE	THICKNESS* (mm)	PRICE PER SHEET (INCL AGEING**)
<b>BRASS</b>	1800 x 900mm	0.8mm	
	1800 x 900mm	1.0mm	
	1800 x 900mm	1.2mm	
	1800 x 900mm	1.6mm	
	1800 x 900mm	2.0mm	
	1800 x 900mm	2.5mm	
	1800 x 900mm	3.0mm	
<b>COPPER</b>	1800 x 900mm	0.7mm	
	1800 x 900mm	1.0mm	
	1800 x 900mm	1.2mm	
	1800 x 900mm	1.6mm	
	1800 x 900mm	2.0mm	
	1800 x 900mm	2.5mm	
	1800 x 900mm	3.0mm	
* CHECK FOR AVAILABILITY OF THICKNESS BEFORE QUOTING			
** PRICE ALLOWS FOR PATINA AGEING EFFECT. PRICES MAY VARY DEPENDING ON FINISH REQUIRED			

All work is priced per number of sheets required to manufacture job, the above prices do not include costs for sheets to be cut to size. Please contact us with your exact job requirements, for us to quote to your individual needs.

#### Maintenance

Clean Axolotl sheet metal with a soft cloth, warm water and mild detergents only. Never use any solvents, thinners, caustics or powder cleansers.

Do not use abrasives as this will potentially scratch, or remove the ageing.

#### Aging

Patinas are added to the sheet metal through the application of chemicals or heat.

Each individual panel will react slightly differently, creating an intended inconsistency found in natural aged metals.

**Lead Times**

Please confirm lead times prior to delivery / commencement of work. The minimum time required for any work carried out in our factory is generally 15-20 working days, however this may increase for large or intricate surfaces.

**Disclaimer:** By signing Axolotl's quotation clients are acknowledging that they understand the outcomes as outlined above. The information presented herein is supplied as a guide to those who handle, install or use this product. It is important that the end user makes a determination regarding the safety procedures utilised during use of this product and ensure they are adequate. Our application of written or spoken technical recommendations that we use to support the buyer/processor is based on our experience, according to the current state of knowledge in science and practice and are not binding and shall not establish a legally valid contractual relationship, and no additional obligations under the purchase contract.
